**Sportster  
and Boss Hoss\*\*  
Engine Kit**

**using MEGA Grenades  
&  
TNT Sticks**

***No better value for  
Sportster or Boss Hoss engine lighting.***

**Any Color  
Red, Blue, Green, Orange,  
White or Amber**

**\$329**

*We use four (4) of our new MEGA Grenade low-profile LED pods under the gas tank to provide a bright, even glow shining down on the engine.*

*Then we add 2 TNT Sticks behind the breather and 1 TNT Stick behind the horn cover or on the choke mount to light up the lower half of each side of the engine.*

*Finally, we place a TNT Stick on the inside of the battery box pointing down and forward at a 45 degree angle to illuminate the rear of the engine.*

***8 pods with the equivalent light output of  
60 full-size LEDs\****

*\*Light output is measured in lumens and varies by color.*
